# Trusted by Top Brands

We love how NoFraud proactively conducts the review without requiring us to submit proof on why an order that was declined coverage is actually valid. Most importantly, NoFraud's approval rate is significantly higher than that of our previous solution. Moving over to NoFraud turned out to be a no-brainer.

**- Vickie King**, Operations Manager at Urban Industry

# Integration

NoFraud is available as a plugin for many of today's most popular Ecommerce platforms. Installation is as simple as clicking a button. Pre-Gateway and API installation options are also available and can be setup quickly and easily.

NoFraud supports several payment gateways and processors including Auth.Net, Stripe, PayPal, Braintree, and Adyen. NoFraud also integrates with several 3rd party subscription and upsell carts including Recharge, CartHook, and Zipify.
