OFFICIAL SPONSOR

**Official
Sponsor of
CONMEBOL
Sudamericana**

Let's play together

PayRetailers is now an Official Sponsor of the South American football tournament CONMEBOL Sudamericana, and strengthens our relationship with the region. This is the first time a PSP has officially sponsored CONMEBOL Sudamericana, the second-most prestigious club competition in South American football. Empowering our social commitment in Latin America, we have reached an agreement with the South American football confederation by which we become the Official Sponsor of CONMEBOL Sudamericana for the next two seasons.

Our clients benefit from our in-depth knowledge in each country by offering a localized payment experience for the region with simple and reliable payment methods used for everything that fans enjoy, and with a worldwide settlement of funds through one single integration.

PayRetailers bridges the access gap between Latin Americans and international companies, and it is a trusted partner to 50+ local banks in 12 countries.

[Enjoy this video about our sponsorship](#)

A local payment strategy for global merchants

Why choose PayRetailers?

- ✓ Connect across 12 different countries
- ✓ Multi-currency processing
- ✓ Real-time payment reporting services through a merchant back office

Easy integration

Rest API

Flexible and robust API designed to be integrated into web or mobile applications, saving time and money on long integration processes.

Libraries (SDK)

PayRetailers has development libraries for multiple languages and platforms: Python, PHP, Ruby, Node.js, and others.

Dedicated technical team

Customer support in different channels, providing the best service to grow your business.

Sandbox environment

Validate your integration with our test environment before moving into production.

Plug-in integration

Our extensive documentation includes all the methods and plug-ins to help integrate your solution as soon as possible.

Once you have your test account, you can review all the PayRetailers solutions and decide which integration best suits your site.

- 1 Paywall Integration**
An all-in-one solution that provides a filtered payment method listing, grouped by payment method channel, that is always up-to-date.
- 2 Dynamic Method Calling**
For integrations which require a more custom-coded approach, the GET Payment Methods API call provides a list of all available payment methods in JSON format, along with their preferred display name and image URL.
- 3 Direct Integration**
Direct Integration provides the payment method codes directly to the merchant, who can integrate them as they see fit.
- 4 Mixed Integration**
Integrate both: a paywall and a direct integration.

Standard checkout

The screenshot shows a mobile checkout interface for 'Pay Retailers'. At the top left is the logo, and at the top right is a language selector set to 'EN' with a dropdown arrow. Below this is a blue header with a yellow triangle on the left and the text 'Payment Instructions'. Underneath is a grey placeholder box. A table with three columns follows: 'Reference' (with a sub-label 'Reference Number' and value '25936200047'), 'Total' (with value 'MXN 20.859,00'), and 'Expiration Date' (with a clock icon and value '1d - 23h:58m'). Below the table is another grey placeholder box labeled 'Instructions'. At the bottom are two circular icons: an envelope and a speech bubble.

Reference	Total	Expiration Date
Reference Number 25936200047	MXN 20.859,00	 1d - 23h:58m

- ✓ Localized: 250+ local payment methods
- ✓ Dynamic: price in local currency
- ✓ Interface with multiple languages
- ✓ Adaptable to all devices
- ✓ Secure domain (https)
- ✓ Security certificates
- ✓ Customized payment options
- ✓ Integrates with your existing customer experience

Security at PayRetailers

Feel safe - we perform multiple checks on all transactions

Our in-house risk management team monitors and reviews high-risk transactions to ensure that only legitimate payments go through, and to reduce fraud.

Risk & Fraud Management System

Get analytics for your business with customizable reports that fit your needs, and chargeback tracking. Pick any parameter you want to measure or track and receive real-time reports to grow your conversions.

Secure Payment Gateway

Your customer's data will always be protected by the most reliable payment security technologies, including EMV, PCI-validated P2PE, and tokenization.

In-House Machine Learning Risk Engine

PayRetailers uses sophisticated fraud decision model, numerous data sources, and our proprietary rules engine to identify high-risk transactions.

Best-in-class Security Tools

Create rules that match your business model, such as blocking specific BIN ranges, triggering 3D Secure, or limiting high-value transactions.
